

PREPARE YOUR PROJECT

Quote enquiry checklist

You do not need every detail yet. Tell us what you know.

01 Start with the essentials

- ☐ Contact name and details
- ☐ Site location
- ☐ Description of the work
- ☐ Approximate timing and access restrictions
- ☐ Overall photographs and close-ups, to send by email

02 Add details of the work required

Pipe insulation

- New or existing system and the purpose of the pipes.
- Approximate diameters and lengths, if available.
- Photos of the affected sections and operating temperatures, if known.

Cladding and finishes

- Indoor or outdoor location and the sections to clad.
- Preferred finish, if already specified.
- Photos of bends, fittings and access points.

Industrial systems

- Site location and access to the working areas.
- Work required and planned phases.
- Available drawings and an approximate schedule.

Passive fire protection

- Element or penetration to be protected.
- Design and performance requirements, if available.
- Photos of the substrate and affected penetrations.

You do not need to know every detail yet. This checklist helps prepare your enquiry and does not replace a technical assessment.
